- Students may possess, display and use wireless communication devices before or after the instructional day.
- Students shall avoid classroom disruptions, by not displaying, using, or activating wireless communication devices during the instructional day. This includes during class, in the library, during lunch breaks, during class changes and during any other structured activity.
- Students must ensure that devices are turned off during the instructional day.
- Students shall not use wireless communication devices while being transported on a school bus.
- Students must conceal wireless communication devices in a backpack, pocket, purse or other container during the instructional day.
- The school is not responsible if a student’s wireless communication device is lost or stolen.

The sole possession of a cellular telephone is not a violation of the Code of Student Conduct. However, the possession of a cellular telephone that disrupts the educational process, the use of the cellular telephone during school hours, use of a cellular phone to commit a crime, and the possession or use of a cellular telephone that disrupts or interferes with the safety-to-life issue for students being transported on a Miami-Dade County Public Schools bus, are infractions of the Code of Student Conduct.”
